

THE BROYLES

REACHING SOULS IN BRAZIL

The Journey

April, 2011

This would be a better description of our furlough than anything else. With over 45,000 miles on our van, a record of over 20 new churches visited, and the number of places "lived in" during this year and four months--we are more than happy to be going "home" to Brazil.

God has made this journey safe and prosperous. He provided delights along the way. Besides reacquainting ourselves with family and friends and supporting churches, we were able to do a bit of sight-seeing! An awesome Washington, D.C. trip and an almost three month trip to the West Coast were definite highlights of this furlough.

Now our life's journey is moving us back in the direction of Jundiai, Brazil. We have our tickets for the 14th of April! We are comforted to know from God's Word that He will prepare the way before us and will be going with us on this stretch of the journey. And through your prayers, you too will be joining us in this new adventure!

We do ask you to pray for the ability to get everything packed and ready for travel, for the strength to say goodbye to aging parents and other family members, easy clearance through customs, and for the future adjustments that come with being gone for over a year. New ministry changes will also have an effect on us, so again, we ask for your continued prayer.

We thought you might enjoy seeing some pictures from our trip out West. Thank you for laboring with us in Jundiai.

We love you in the Lord,

Terry and Wendy Broyles and family
