January-March 2012

Dear Praying Partners,

God is hearing and answering your prayers with a great big "yes". Much has happened since our last letter, not the least of which was a total right hip replacement for Barry. It is a great relief not to be in constant sharp pain twenty-four hours a day. The surgery was done in Bluefield WV, by Dr. Azzo. The surgery went great and the recovery is going really well. I walked with a walker for a week, a pronged cane for a little more than a week, and finally a regular cane for about a week. I am not ready to run a marathon, but I am doing great. Your prayers are greatly appreciated.

Due to your response to the plea for a heating system, we now have a heat-pump system, and it is doing wonderful. Thank you for your kindness and generosity!!!

Attendance in Church is still not steady. We have anywhere from six to sixteen attending. There is one couple who have been especially encouraging. We had a ten year-old girl come to church and went and told her grandparents they had to come to her church. They have not missed a Sunday since. I feel the Lord has sent them especially to be an encouragement to me, and they truly have been. They both give a testimony of salvation.

There was a car wreck involving three people who were in church the previous Sunday. The two men were flown to a hospital in Kingsport, TN. I knew the Lord had been dealing with one of the men and the woman involved in the wreck. When I arrived at the hospital in Kingsport, I went into the room of the man. I leaned over his bed and said, "Has God gotten your attention yet?" He nodded his head in affirmation.

Well, when they were discharged from the hospital, they called me and told me they wanted to get saved. They did not want to die in their sin.

They came forward in Church the Sunday after my surgery while we had a visiting speaker and both made professions of faith. PTL Pray for Robert and Crystal to grow in their new walk with the Lord.

Thank you so much for your prayers and support.
